MUST SETTLE THE CURRENCY

Henry W. Yates Discusses Current Problems Before the Life Underwriters.

GOOD CROPS WILL NOT ALONE SUFFICE

Greatest Period of Prosperity the Country Has Known Followed the Demonetization of Silver-Agitation Unsettles Confidence.

The Nebraska Life Underwriters' association held its regular monthly meeting at the Commercial club last evening. The members and the guest of the evening, Mr. Henry W. Ya'ex, sat down to a supper at 6.30 p. m. After the cigars, Mr. Yales addressed the party on the money question as applied to the life insurance business, and the general effect of free silver on the life insurance and general business.

In opening Mr. Yates said that when life insurance companies collect premiums on risks they do so with the expectation of paying the policy, but do not expect to pay it with depreciated currency, consequently, they do not want their premiums paid in such currency. Speaking of the demonetization of silver in this country, the speaker said there was no instance recorded in history where the demonetization of silver had ever hurt

any country.

Referring to the prospect of a bountiful crop in this section, Mr. Yates expressed the conviction that good crops would not count for much until the agitation about free silver is stopped. The people would have no confidence until this question had been settled and until then money would continue to be hoarded. The country must come to the general money standard of the world before it could do business with the

The greatest prosperity the country had ever seen, he continued, had been during the years following the so-called "crime of In 1872 the total of exports and imorts was \$1,070,000,000. In 1892 these totals ports was \$1,070,000,000. In 1892 these totals had reached the figure of \$1,857,000,000, or nearly double in twenty years. In the years from 1876 to 1892, with two triffing exceptions, he said, the exports had exceeded the imports \$1,923,000,000, or over \$100,000,000 per annum, and aggregated a sum equal to one-half of the gold circulating as money in the entire circulating as money in the entire The assessed valuation of property in the United States during the period from 1880 to 1890 had increased \$5,000,000,000, n sum equal to all the gold and silver money in the world, all of which went to show, he said, that the period mentioned had wit-nessed the greatest prosperity the country GRANT ON THE CURRENCY.

Mr. Yates read extracts from messages Mr. Yatos read extracts from messages sent to congress by President Grant, showing what he thought on the money question. But, in my judgment, the first step toward accomplishing this object is to secure a currency of fixed, stable value—a currency good wherever civilization reigns. Provision should be made by which the secretary of the treasury can obtain gold as it may become necessary from time to time from the date when specie resumption commences." Another message, dated December 7, 1875, contained the following: "Nothing seems to me more certain than that a full, healthy and permanent reaction cannot take place in favor of the industries and financial wel-

measure of value recognized throughout the civilized world." Mr. Yates continued his talk along the lines covered by President Grant and at the conclusion of his remarks a general dis-cussion was indulged in by all present, many questions being propounded to Mr. Yates and the main points in his address being gone over again, bringing them out more clearly.

WOMAN'S CLUB DISCUSS BROWNING. Mr. Llwyd Reads an Interesting Paper.

After waiting over an hour yesterday afternoon for the twenty-five members necessary to make a quorum of the Woman's club the faithful were sufficiently reinforced and the club proceeded to accept its rearranged constitution with commendable alacrity. The work was completed in a half hour, and members of the club express themselves as satisfied with the work of the committee and the im-provements they have made.

"Browning as a Prophet" was the subject of a very able and esholarly paper, read be-fore the Browning department and its friends

at the Woman's club rooms yesterday after-Mr. Llwyd said in brief that Browning was

a prophet, in that he was able to blend the highest ideals with the everyday lives of men—what is, with what ought to be, and is to be. The first question to be propounded of a prophet is, "What is his message?" The second, "In what manner dose he convey his message?" and lastly, "What is the program of his practical actions?" or the first Browning taught a magnificent

optimism. The world is the best world possible at present, and growing better. Man, although so dull beside his Creator's epiendor, is His image and His witness. Browning gave his message by means of rugged, terse, essen-lially dramatic, verse. He believed in the onward movement of the world by means of great leaders-heroes. The Browning department gave Mr. Llwyd a hearty vote of thanks for his kindly effort

in their behalf.

NEW RECORDS FOR THE COAST. Pole Vault and Shot Put Marks Set in

SAN FRANCISCO, May 2.-The Pacific Coast Athletic association held its field and track games at Central park today before 6,000 people. The proceeds of the game will be used to pay the expenses of the team which the State university will send east to compete with the athletes of Harvard, Yale, Princeton and other colleges. The weather was perfect, but the time for the track events, excepting the 100 yard dashes, was slow, owing to the new track, which was very soft. The most stubbornly contested event was the pole vault. Dole of Stanford and Lloyd of California tied at 10 feet 7½ inches and 10 feet 3½ inches, when Lloyd injured his knee and withdrew. Dole topped the bar at 10 feet 10½ inches, which is a new coast record. A Cheek of the Oakland High school put the sixteen pound shot 41 feet 8½ inches, a new coast record. Edgren was second with 40 feet 11 inches. Captain Merwin of California university won the mile walk with ease. Thomas Carroll, professional hammer thrower, gave an exhibition. He threw a fourteen pound hammer 171 feet 9 inches, which is said to be the world's record. Edgren of University of California threw the sixteen pound hammer 136 feet 11 inches.

Stanford university athletes won the pole ast to compete with the athletes of Har-

The team will first go to Union college, where games will be played on May 18. The Californians will next go to Cambridge, where they will compete with the Harvard athletes on May 23. The team will also take part in the intercollegiate and Pennsylvania events on May 29 and June 3 respectively. The western intercollegiate events to be held at Chicago June 8 will be the most important in which the Californians will participate, from the fact that they already hold the championship.

Fought in a Corn Crib. WAHOO, Neb., May 2—(Special.)—The sparring contest between the "Black Pearl" of this place and Lou Carder of Pearl" of this place and Lou Carder of Lincoln came off yesterday afternoon. It was not a howling success, so far as gate receipts were concerned, but the two men managed to get together in a corn crib after looking about for some time for a convenient place in which to thump each other. Five rounds were fought, at the end of which the advantage was decided in favor of the "Black Pear!," he having scored several knock-dewins. The train pulled in about this time, and, as the crowd wanted to get home, the referee decided the fight in the "Black Pearl's" favor.

Baldwin's string arrived this morning from California. Neal wanted a feed room which Drake had possession of, but which he was not using. The men quarreled and they drew revolvers, Drake firing two shots. One of the bullets took effect just above the heart. Drake surrendered himself to Marshal Frederick of South Louisville, Neal was taken to the city hospital. His case is considered hopeless. herses are now quartered at the race track.

Freedman Denies the Rusie Story. NEW YORK, May 2.-Amos Rusie, the base ball pitcher, is not to rejoin the New base ball pitcher, is not to rejoin the New York club. That, at all events, is the statement given out today by President Andrew Freedman. The allegation that Rusie is on his way east, having compromised his differences with the managers of the club and intending to take his old team of 1856, was called to Mr. Freedman's attention and he said: "There is absolutely no truth in the story that I am trying to get Rusie. I don't know where Rusie is. I have not heard from him and I have not sent for him. I have not compromised with him and I don't intend to."

The University lads did the usual thing esterday afternoon by defeating the Red Birds from the State university. It was the opening game of the season, so to speak, because it was the first one which has yet been played with an outside team. In consequence there was a nice little crowd in the grand stand and a still bigger one on the bleachers, the latter being composed largely of rooters for the visitors, who, it might be mentioned incidentally, did not have much to root for. The trouble was that the State University boys could not find Jellen, who pitched for the home boys. He was found for only five hits and three of these were gobbled by Rain of the visiting team. Johnny did mighty well, getting a three and a two-bagger and a nice little single. The rest apparently could not handle the stick and fourteen of them fell victims to Jellen's curves.

Although little Thorpe did fairly well himself, striking out eight men, the game was really won by the superior batting of the home team. Its fielding was at times very

yellow and was inferior to that of the visit ors on the whole. One incident of th

Small Crowd Witnesses the Initial Races of the Season.

EIGHT LIVELY CONTESTS ON THE CARD

Old Favorites Show Up in Better Form Than Ever_Efforts to Make New State Record Fall by Small Margins.

A more ideal day for bloyde racing than yesterday could not have been asked for and the 300 people that took the trouble to visit Charles street park in the afternoon were amply repaid by sceing some very pretty contests. The field of starters in each race was comparatively small, but the men who were entered were among the best in the state, and, therefore, the racing was of a high order, and was deserving of a great deal better patronage. The management is, however, not to be discouraged and will, upon Saturday afternoon, May 16, give its second matinee.

The first event on yesterday's card was the two mile novice race, which brought out four starters. It was a very close race between Brinsmead and Vandervoort, the latter winning by a small margin. Time: 5:07 1-5. The second event was an attempt by Floyd McCall, the Denver lad, to lower the Nebrzoka state one mile, unpaced record, which stands at 2:19 4-5. At the crack of the pirtol he got away like a bird and for the first threa-quarters of a mile was well under the record, but slowed a trifle on the last quarter and failed to get the record, his time being 2:20 flat. Con≋dering the fact that quite a stiff wind was blowing, the ride was a very meritorious one, it being only 1-5 of a second slower than the record.

The next event was the two mile measur-ger boys' race, with four starters. Ralph Brown proved an easy victor, his time being

The fourth event, a five-mile amoteur handicap, had six starters, and was one of the prettiest races of the day. Dan Brewer, a comparatively new rider, who started from scratch and had handicaps of from 150 to 300 yards to overcome made a very game ride and landed first prize in 13:56 2-5, which is good time for the distance.

The next event, a three-mile colored men's racs, proved laughable, as well as interesting.

Count Louis Napoleon Duberry Malone, the Tourist Wheelmen's mascot, was the winner Time: 7:31.
The seventh event, the ten-mile open ama teur race, brought out five starters, includ-ing Frederickson and Edwood, "Fred" is rid-ing better than ever, and while Edwood gave

Ralph Brown, the messenger boy, who is a good rider, but at the same time hardly able to cope with such men as McCall or Freder-ickson, aspired to be a record breaker and allo; made an attempt to get the one-half mile record, but failed by just four seconds, which demonstrates that he was riding out of his class, Time: 1:09.

The last event, the ten-mile professional

race, had three starters, Reading, Holton and Hall, the Missouri man, who set a merry clip and made the race the more interesting. Reading demonstrated that he is not a has been by winning the race easily in the splendid time of 25:25 2-5. Holton second.

HALL'S SIDE WINS AT CRICKET, LONDON FIELD IS STILL SORE,

First Game of the Season on the Grounds of the Omaha Club. The Omaha Cricket club played its first game yesterday afternoon and as the score

will testify, the hands of quite a few had not lost their cunning. In the absence of J. Francis Hall, Frank Hilditch opposed Prest Hall, and Mr. Hall's star was in the ascendency to the tune of orty-one runs.

club to match T. B. Coneff against F. E. Bacon of the London Athletic club, the recognized champion mile runners of the United States and Great Britain respectively, says that a number of issues are involved in this cool suggestion upon the part of the New York Athletic club, and recites the story of Sweeny, the jumper, and the New York Athletic club inquiry into the charge that he is a prefessional and concludes: "It is over seven months since the committee of inquiry specially selected has thrown up the case and a new committee has been or was to be selected. It would be more becoming to the New York Athletic club, it strikes us, if, before trying to arrange a new contest, it satisfied English athletes in the Sweeny matter." Hidditch's side did not make any lengthy stand until the captain and J. Douglas got together. Douglas his everything in sight and made fifteen before he succumbed to a Yorker from George Vaughan. Hidditch played with great patience and good indgment and it is to be hoped that he will appear on the field oftener this year than he did last and give the club his practical support. His light is too good to be hidden under a bushel.

For Prest Hall's side, Tuffield and Gulfd started in to make things hum, and after putting up sixteen runs they were retired, giving way to Harry New and G. H. Vaughan, and then the four was renewed, for Harry, in order to keen up his last year's reputation, as well as to show what good batting was, started in by hitting and cutting, at the same time showing remarkable defense, and it was not until he had forty-eight runs to his credit that he tried to fool with a Yorker from Beb Taylor and Harry had to guit amid the plaudits of the many spectators.

George Vaughan made ten in good style and retired in favor of Sorague, a new member, who carried out his but for five. Brotchie also placed five to his credit. The bowling and fielding was good for the beginning of the season. Several new faces were seen on the grounds and from present indications the influx of new members bids fair to rival all previous years. Subjoined is the score:

Meeting of the State Association To-

morrow Evening in Omaha. This week will see the opening of the tennis season in Omaha. Already some of the smaller clubs have become active, and in some places play has been going on for several weeks. The courts of the Omaha club are now in first-class condition. The

The business includes the election of officers and the location of the state tournaments. The association is formed for the purpose of making the game popular in the state and encouraging the organization of clubs in the smaller towns.

Last year the singles championship commencement week of the state university. C. S. Cullingham of Omaha carried off the honors. The doubles tornament was at Grand Island. Only four clubs formally entered the association last season. Many others expressed sympathy, however, with its objects, and there are reasons for believing that a much larger membership can be attained this summer. C. H. Young and W. Byles, state secretary, were appointed by the Omaha club at its annual meeting in W. Byles, state secretary, were appointed by the Omaha club at its annual meeting if February to represent the interests of the club at the meeting of the state association tomorrow. The president of the association is S. L. Geisthardt of Lincoln.

Is the external indication of a condition of the blood which produces a fiery irritation almost unbearable. It is a mistake to think that this local irritation is the disease itself—it is simply an evidence of a disordered condition of the blood. The seat of the disease is in the blood, and this is why the various salves and ointments usually applied have no effect whatever. They cannot possibly reach the origin of the trouble; only a blood remedy can do that. S. S. is without an equal for blood diseases, and promptly and permanently cures Eczema and removes all taint.

Much torture could be avoided if the

first itching symptoms were heeded and a course of S.S.S. taken promptly, as apparently insignificant skin irritations usually develop into the worst form of Eczema unless properly treated. It matters not what other treatment has been tried in vain, S. S. S. always

gets at the seat of the disease, and forces it out. Mr. William Armstrong, an old resident and highly respected citizen of

De Pere, Wis., writes on April 1st, 1896.

"I have been a sufferer for eight years with that horrible disease, Eczema, at times all over my body, and no person can describe the burning and itching I had to endure.

"The extent of my sufferings can be appreciated when I state that my condition was such that I could not take my bed, and for three months I never laid down, but was compelled to sit in my chair when not moving around. I was treated by the best of physicians with no success, and tried all the patent medicines recommended for Eczema, without any good results. I then went to the Indiana Mud baths, with the same results, and then to Mt. Clements, the celebrate I medical resort, where the treatment partially helped me, but the disease shortly returned. I went to Florida, thinking that a change of climate and water and the citron fruit might cure me, but found no cure.
"I then tried S.S.S. and after three days

the burning and itching subsided, and I continued to improve stealily until I was well-entirely cured. After commencing S. S. S. I never put an external application to my limbs or any part of my body. You may refer to me any person suffering from Eczema. I will always keep the S. S. S. in my house, for I consider it the best blood medicine of the present age. I am seventy years of age and am now in perfect health." For real blood diseases relief can only be obttined by using a real blood remedy. So many people who are sufferers from an obstinate or deep-seated blood disease make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. It is in just such cases which other so-called blood remedies cannot reach that S.S.S. has made some of the most wonderful

S. S. S. cures permanently Cancer, Catarrh, Rheumatism, Eczema, Tetter, Contagious Blood Poison, Scrofula, and all other diseases having their origin in

the blood. It is a A Real Blood Remedy. and gets at the seat of disease and forces it out promptly even after other so-called

blood remedies have failed. S. S. S. is guaranteed purely vegetable. Books on blood and skin diseases will be mailed free to any address by Swift
